PROFESSIONAL SUMMARY

Detail-oriented Entry-level Web and Mobile Developer skilled in building responsive web and cross-platform mobile applications using modern technologies such as HTML, CSS, JavaScript, Laravel, PHP, React, and React Native. Passionate about creating intuitive user interfaces and enhancing digital experiences through collaboration.

WORK EXPERIENCE

Infinity Hub

Feb 2025 – May 2025

Web Developer Intern

Davao City

- Contributed to full stack development using React and Laravel, enhancing project functionality.
- Collaborated on bug fixes and UI improvements, leading to an improved user experience.
- Worked closely with team members to ensure project deadlines were consistently met.
- Participated in code reviews to maintain high standards of code quality and performance.
- Utilized Agile methodologies to streamline the development process and improve team efficiency.

Remote

2020 – 2023

Freelance Comic Colorist

- Provided flat coloring for digital comic series.
- Delivered high-quality artwork under tight deadlines.
- Improved coloring techniques continuously.

PROJECTS

Care AI – Mobile Chatbot Application (Capstone)

- Developed using React Native, creating a responsive mobile application to enhance user interaction.
- Designed and implemented a conversational UI for real-time interaction, improving user engagement.
- Collaborated with team members to deliver project requirements effectively and efficiently.
- Conducted usability testing to gather feedback and make iterative improvements.
- Integrated API's to enhance functionality, providing a seamless user experience.

Educator Module – Web Application (Internship Projects)

- Developed key features including dashboard, content system, assessment tests, and performance reports.
- Implemented question banks and certification workflows.
- Built responsive UI using React and integrated backend services via Laravel.
- Collaborated with a team using Agile methodology.

3N1 Mobile App – Productivity & Finance Management Application (Personal Project)

- Developed a multifunctional mobile application using React Native, Express.js, and PostgreSQL.
- Integrated core features including a To-Do List, Budget Planner, and Expense Splitter in a single platform.
- Built backend APIs with Express.js and managed structured data using PostgreSQL.
- Implemented real-time data handling and CRUD operations to improve usability and performance.
